Kemio Quick Start Guide

ZIINSTKEMDIS

Register your instrument

Register your Kemio instrument online to receive the latest software, instructions and updates from Palintest. Scan the QR code or visit <https://www.palintest.com/en/product-registration>.

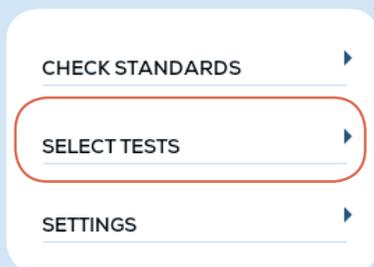

- 1 Fill out the required fields in the form.
- 2 Enter your instrument's serial number from the bottom of the instrument.
- 3 (Optional) check the boxes to sign up to receive the latest news from Palintest and updates about instrument servicing.
- 4 Press 'Register your product' to submit the form.

Select test types

- 1 Press CONFIGURATION, then SELECT TEST.

- 2 Select the test types you wish to use.

- 3 Press < to return to the CONFIGURATION menu.

Add batch information

- 1 Press BATCH INFORMATION.
- 2 Add new batch information.

- 3 Scan the QR code on the side of the sensor box.

- 4 Press  to return to the home screen.

Perform a test

Press the power button to turn on the instrument.

Press PERFORM TEST.

Follow the on-screen test instructions.

After the countdown, view the results on screen.

For more details and troubleshooting, download the full test booklet from the Palintest website at: www.palintest.com
